Dear Mr. Braxton:

Re: Drum Mine, M/027/007; Amendment of Reclamation Plan & Surety

Thank you for your response dated July 12th to our request to amend our Reclamation Plan and Surety and for the additional information which you have included.

It is our intention to increase the Reclamation Surety by the amount required by your Department, \$24,100, during this week when the securities for the reclamation bonding are renewed. You will be advised by the State Treasurer when this has been completed.

Find attached a complete copy of the revised FORM MR-TRL, together with a newly signed and notarized "Final Sworn Statement of Transferee". Also find enclosed a copy of my transmittal letter to Western States Minerals Corporation, requesting their signature to the modified forms, as you have requested.

With the completion of the Surety increase and the return of the signed Transferor Statement from WSMC, it is my understanding that all documents needed for presentation the Board will be in your hands.

Please call me if I can be of further assistance in expediting this Amendment.

Sincerely,

  
E. B. King
